

# Velto White Paper

# Introduction

**Velto is a decentralized, borderless marketplace that empowers users to buy and sell products globally. Built on blockchain technology, Velto removes intermediaries and replaces them with smart contracts—guaranteeing secure, transparent, and trustless transactions.**

## **Vision:**

To redefine global commerce through decentralization, enabling anyone, anywhere, to trade products without institutional friction, censorship, or borders.

# Problem

**Traditional e-commerce is constrained by:**

- **Geographic and payment limitations**
- **High transaction fees**
- **Centralized control**
- **Risk of fraud and lack of transparency**

## **Solution:**

Velto introduces a decentralized platform where:

- Sellers can list products globally.
- Buyers can shop securely with crypto.
- Smart contracts govern every transaction, eliminating fraud.

# Tokenomics

**Token Name: Velto**

**Ticker: VLT**

**Total Supply: 95,000,000,000 VLT (95 Billion)**

**Initial Circulation: 10%**

**Use Cases:**

- **Transaction fees**
- **Governance participation**
- **Staking rewards**
- **Escrow functionality**

## Token Allocation

- **Community & Ecosystem: 50%**
- **Team & Advisors: 15%**
- **Liquidity & Exchanges: 15%**
- **Reserve: 10%**
- **Marketing & Partnerships: 10%**

# Staking & Rewards

**Velto token holders can stake their VELTO tokens to earn 100 APY while holding the token, and all payments will be sent out daily**

**To ensure full transparency and efficiency all distribution of rewards are automated.**

# Velto Roadmap

- Q1 2025 – 💰 Token Launch & Exchange Listings
- Official release of the VELTO token with listings on major decentralized and centralized exchanges.

## Q3 2025 – 🚀 MVP Launch

- Launch of the core Velto platform with basic marketplace functionality and smart contract-powered transactions.
- Q4 2025 – 🗳️ DAO Formation
- Transition governance to the community through a decentralized autonomous organization (DAO) using VLT for voting rights.
- Q1 2026 – 🔗 Cross-chain Integration
- Expand Velto's interoperability to support multiple blockchain networks for broader accessibility and lower fees.
